All licences are floating type of licence and can be moved from one PC to another.

Expert licence - to be used on a single workstation by 1-2 users.

Team licence - includes up to 5 workstations or a cluster used by a team up to 8 users in one group, can be installed

Site licence - covers up to 20 users across different groups within an institution/ company.

Gift licence - QDB membership which can be granted to a customer's associate, but not used within the same team

Global Licence - applies to cases where the software is installed at *one site* but the users are going to be based in different locations of the same company

Min spec:

OS: Linux x86, **64 bit only**, 4 GB RAM (large calculations will require more RAM), 10 GB free disk space

Annual support includes initial training, e-mail and telephone support, bug fixes through the year.

Add on modules should to be purchased separately and we can advise which ones you might need.

Additional plasma chemistries supplied with HPEM free of charge:

Ar,	O2,	NF2,
Cl2,	N2,	Ar/Al,
Ar/Cu,	Ar/Hg,	Ar/C4F8/O2/CO,
He/N2,	C2F6	

Other chemistries can be designed and provided on request. Contact us on sales@quantemol.com

Training courses	Group size	Duration		
		1 day	2 days	3 days
Quantemol team offers bespoke training courses for individuals or research groups. The prices quoted are estimates based on generic materials and an online format. The cost will increase if you require a very specific material to be developed. An in person training format will incur an additional fee to cover our expert's travel costs.	1 to 1 tutorial	\$ 700	\$ 1,200	\$ 1,700
	Small research group (up to 5 people)	\$ 700	\$ 1,400	\$ 1,800
